FLOWER SEEDS
VEGETABLE SEEDS

1921-1922

GERMAIN SEED & PLANT CO.
LOS ANGELES, CALIF.

HYACINTH

Plant in open ground, in good rich soil, from October to January, covering to the depth of from four to six inches. For pot culture, plant in five-inch pots, leaving one-third of the bulb exposed. Keep in a cool, dark place five or six weeks till the roots are fully developed, then gradually inure to the light.

In glasses, fill the glass with water so as to nearly touch the base of the bulb. A piece of charcoal the size of a walnut, put into the water, will keep it pure and obviate frequent changing.

NAMED SINGLE HYACINTHS

	Ea.	Doz.	100
Gertrude, carmine rose, large spike	\$0.25	\$2.50	\$20.00

Rose, selected bulbs.....	.10	1.00	7.50
Blue, selected bulbs.....	.10	1.00	7.50

NARCISSUS OR DAFFODIL

The Narcissus is one of the most useful of the early blooming bulbs, being hardy and of easy culture. They succeed in sun or shade and by bearing this in mind when planting a succession of bloom may be obtained.

Valuable as cut flowers, they are also highly prized for bedding and, when naturalized in the shrubby border, they are delightful.

Plant from October to January, covering the bulbs about five inches. They will thrive in any good garden soil. The polyanthus varieties are also grown in bowls with water and a few pebbles—the Chinese lilies and paper whites being the first to bloom when treated in this way.

SINGLE LARGE TRUMPET VARIETIES

	Ea.	Doz.	100
Emperor, enormous, brilliant yellow trumpet.....	\$0.10	\$1.00	\$8.00
Golden Spur, has enormous deep golden yellow flowers; early10	1.00	8.00

BICOLORS

Chinese Sacred Lily, double, (local grown).....	.15	1.50	

JONQUIL

	Doz.	100
Single Yellow (sweet scented).....	\$0.50	\$3.50
Campernelle Yellow75	5.50
Odorous Regulosus, double yellow..	.75	5.50

TULIP

For a gorgeous display of color in a Spring garden, the tulip is second to none. Plant them in light soil; a rich sandy loam may not always be available but the addition of a liberal amount of sand and rotted manure or good fertilizer will produce wonderful results where soils are heavy. They should be planted four inches deep and five or six inches apart, or they may be scattered in the perennial border and allowed to become naturalized. A slightly shaded position will lengthen the blooming season.

When grown in pots or pans, which is easily done, they may be planted quite close together and about two inches deep, bearing in mind that a light, rich soil is equally important here.

COTTAGE OR MAY-FLOWERING

	Ea.	Doz.	100
Bouton d'Or, rich orange yellow	\$0.10	\$0.80	6.00
Bizards, superfine mixed, yellow ground, blotched and feathered, with crimson, pink, violet and maroon.....	.10	.80	6.00

A. Johnsonii , striped white on red ground, extra fine:		
First size.....	.25	2.50
A. Vtatta , mixed, most beautiful shades, extra choice.....	.50	5.00

BEGONIA

TUBEROUS ROOTED

This splendid class of begonias is perhaps the handsomest of all bedding plants for a shady or semi-shaded location. Bulbs may be started in pots early in February or in the open later in the Spring. They prefer a rich sandy loam, and should be covered to a depth of two or three inches.

Ready about February 1st.

	Ea.	Doz.
Tuberous Rooted , single varieties, in separate colors:

Double mixed.....	.50	5.00
Single Frilled Mixed.....	.50	5.00

CALADIUM

ELEPHANT'S EAR

The leaves of immense size on massive stems grow to a height of four feet. For a tropical effect this plant has no equal.

When planting, leave crowns even with the surface of the ground, water sparingly until they are fairly started, but water abundantly when in active growth.

	Ea.	Doz.
First 'Size.....	\$0.35	3.50
Ready for shipment in December		

CRINUM

Crinum Moorei

Flowers are very large and of a beautiful shade of pink, richly scented, resembling the Amaryllis Bella Donna, except that it is of a lighter shade of pink.

Crinum Moorei, Ea.....	\$0.35
------------------------	--------

CALLA LILY

Known to every lover of flowers. It is one of the most beautiful blooms, and cannot be too highly recommended.

Aethiopica, the White Calla Lily, or Lily of the Nile, too well known to need further description.

	Ea.	Doz.
Mammoth size.....	\$0.50	\$5.00
First Size.....	.35	3.50
Second Size.....	.25	2.50

ELLIOTIANA, THE YELLOW CALLA LILY

Calla Elliotiana—Yellow Calla

This is the finest Calla grown; large deep, rich golden yellow color. The leaves are spotted with white, habit like our old favorite White Calla. Ready for shipment January 1st.

	Ea.	Doz.
Small Size.....	\$0.35	\$3.50
Large Size.....	.50	5.00

GIANT BLACK CALLA

(*Arum Dracunculus*)

A remarkable and rare plant. The flowers are shaped like those of the ordinary Calla Lily but are of a crimson-maroon color, so dark as to appear quite black. The plant grows to a height of three feet or more; the deeply cut foliage is highly decorative.

Each	\$0.75
------------	--------

FREESIA

Culture—Freesias are very easily raised. Plant to the depth of two inches in any good, sandy soil, any time from August to November, and the flowers will appear during January and March.

Freesia Purity. Pure White.

	doz.	100
Mammoth Size.....	\$0.35	\$2.50

Stylosa, lilac blue.....	.35	3.50
Yellow50	5.00

LILIUM

We cannot say too much in praise of this elegant class of plants, which are becoming more popular every year. It does not seem necessary to attempt an improvement on that which is already perfect, as the lily is. Nature has endowed the lily with every element of grace and beauty, not only in outline but in color: the happy blending of colors, in form most varied and beautiful, in fragrance delightful; in short in all the characters essential to real beauty.

Culture—In open ground; dig well, add some sand and well rotted manure (except for Auratum, which will not bear manure) and plant about five inches deep. In pots: Give thorough drainage, then fill up with compost, consisting of good,

rich soil, peat and river sand; place the bulb firmly on this and cover about one inch below the surface; give no water until plants appear above ground, then water freely.

L. Giganteum (Easter Lily),. Ready about November; other varieties about the middle of December. They bloom as follows:

Giganteum in April and May; other varieties in July and August.

Album, the white Japan Lily, Ea.....\$0.50

Auratum, "Golden Banded Lily," the finest and most magnificent of the genus. Flowers white, spotted crimson with a distinct golden stripe running through each petal.

First size bulb, Ea.....\$0.50

Formosum (black stemmed). Pure white, one of the best flowers, easily forced, Ea...\$0.50

Giganteum, large flowering, pure white lily of strong and healthy growth, can be forced into bloom for Easter. Ea..... .50

Rubrum, white shaded with rose and spotted with crimson, Ea..... .50

Tigrinum flore pleno, "Double Tiger Lily," of stately habit, growing to a height of 5 feet, bearing an immense number of double flowers, orangered, spotted black.....25

Tigrinum, "Tiger Lily," orange, spotted black, very showy, ea.25

CALIFORNIA LILIES

Humboldtii, a beautiful native California species, very large and showy, flowers orange, spotted with black..... .35

Parryii, flowers lemon-yellow, long, trumpet-shaped, very fragrant, a native California species35

LILY OF THE VALLEY

Ea. Doz.

Lily of the Valley—The pips, or slender running root stalks should be planted in moderately rich, moist soil in shady situations. Planted from January to March they bloom from April to June\$0.10 1.00

MADEIRA VINE

Ea. Doz.

Madeira, or "Mignonette Vine".....\$0.10 \$1.00

CINNAMON VINE

(*Dioscorea Batatas*)

A rapid climber with bright, glossy heart-shaped leaves. It derives its name from the peculiar fragrance of the delicate white blooms, Ea.....\$0.25

MORAEA

Grandiflora—Handsome bulbous plants from the Cape of Good Hope, they are allied to the Iris and require the same treatment. The flowers resemble the Iris somewhat but the standards are absent. In color they are white, shading to a light golden yellow in the center and with occasional touches of purple, Ea.....\$0.75

MONTBRETIA

Montbretia *Crocsmiaeflora*, long spikes of
showy, orange-colored flowers, spotted
with purple, brilliant and showy.....\$0.25

Doz.

ORNITHOGALUM (STAR OF BETHLEHEM)

Arabicum, beautiful variety throwing a
tall spike of numerous star-shaped
flowers with a jet-black center and
having a distinct aromatic perfume,
decidedly pretty when grown in the
garden. Large size, each.....\$0.10 \$1.00

Ea. Doz.

RANUNCULUS

Ranunculus

The *Ranunculus* produces strikingly beautiful flowers of every imaginable shade from bright vermilion to pink, yellow and pure white. The plants are free bloomers and useful for cut flowers.

Before planting the roots soak them in water for two or three hours; this causes them to swell to full size. Plant them in a good, rich soil, claws downward, six to eight inches apart each way and cover the roots with two inches of finely sifted soil.

French double and semi-double mixed..\$0.75

Doz.

SCILLA

Peruviana. The plant follows the habit of an *Amaryllis* but the dark blue flowers are produced in broad racemes on stout stems about two feet in height, Ea.....\$0.25

OXALIS

Handsome and graceful flowers varied in color produced in great profusion during winter and spring—suitable for hanging baskets, pots, window boxes, and borders. Plant them two inches deep in good friable soil from July to early fall.

	Doz.	100
Grand Duchesse, White , large pure white, on single stems from 5 to 8 inches long, bright green foliage, extra fine.....	\$0.35	\$2.50
Grand Duchesse, Pink , bright pink on single stems; compact, sturdy grower with dark green foliage.....	.35	2.50
Grand Duchesse, Lavender , pinkish lavender, changing to old rose, on single stems 5 or 8 inches long; dark green foliage.....	.35	2.50
Bermuda Buttercup , flowers are very large, bright buttercup yellow, produced in great profusion on long stems. Well-grown plants have produced over 1000 blossoms in one season, and as many as 70 flower stems at one time.....	.35	2.50
Bowei is decidedly the handsomest. The flowers are large and of a most brilliant rose color. If planted in a rockery or border it will dispute position with almost any other plant. Bulbs ready for planting from July to November.....	.35	2.50

TUBEROSE

Double Pearl, far superior to the old double variety, growing only about two feet high, with large individual double white florets, which have longer foot stalks than the old variety, rendering them more useful for cut flower purposes. Large bulbs, Each, 15 cts; per dozen.....

\$1.50

WATSONIA

Similar to the Gladiolus, even in culture. It grows about 4 feet high and produces a wonderful profusion of flowers which are in bloom about Easter time. Ready for planting in August.

Ea. Doz.

American Beauty , a new variety of great merit. The spikes are tall and the flowers are of a clear rose-pink which is really beautiful.....	\$0.20	\$2.00
Pure White10	.75
Pink10	1.00

ZEPHYRANTHES

(Zephyr Flower, or Fairy Lilies)

Very effective for massing or borders, flowering in great profusion during spring and summer; also suitable for pot culture, a few bulbs potted in the fall will give a fine display during the winter.

Doz.

Alba , pure white.....	\$0.25
Rosea , rose pink.....	.75

A FEW FLOWER SEEDS FOR FALL SOWING

Note—Prices up to and including ten pound quantities on all flower and vegetable seed include postage or expressage prepaid. When sent otherwise, deduct 10 cents per pound or fraction thereof. Prices listed for larger quantities if desired sent by Parcel Post, necessary postage should be added. If quantities are desired, do not fail to write for special prices.

BEETS

Note.—Prices listed are postpaid.

Germain Recommends

CROSBY'S EGYPTIAN BEET

Among all the table beets there is probably no other which has been so often featured by seed houses, where a first class stock of seeds can be obtained. A good purchase by one of our buyers causes us to put the Germain mark of approval on this variety this year by placing it among our specialties. Many experienced growers say "Crosby's Egyptian is the only beet worth planting," and while this may be somewhat of an exaggerated opinion, we will unhesitatingly recommend this lot of seed as being the best that money can buy. Crosby's Egyptian is a medium sized beet, very early and of small top. It grows smooth and the deep crimson flesh is sweet and tender. Price, pkt. 10 cents; ounce 20 cents; ¼ pound 45 cents; pound \$1.25.

Pkt. Oz. ¼ lb. 1 lb.

Detroit Dark Red. One of the best beets for either market or home garden. Very rich in color, being a dark red. We recommend this as specially desirable to plant for market gardeners on account of its attractive appearance. The root is medium sized, globular or nearly round, very smooth and of dark red color..	\$.10	\$.20	\$.50	\$ 1.50
Germain Extra Early Eclipse. Eclipse is a well known variety of of table beets. Nearly as early as the Egyptian10	.20	.45	1.25
Extra Early Egyptian. Very early, of dark blood color, rather flat shape10	.20	.45	1.25
Germain Long Blood. A splendid variety of fine flavor and of long, symmetrical shape.....	.10	.20	.45	1.25
Swiss Chard, or Silver. Cultivated for its leaf-stalks, which are served like asparagus, and for its leaves, cooked like spinach. Cut often, as new stalks will be produced10	.20	.65	2.00

BRUSSELS SPROUTS

Red Dutch or Pickling. Fine, solid, dark red heads	\$.10	\$.50	\$ 1.65	\$ 5.00

CARROTS

Note—Prices listed are postpaid.
 Germain Recommends

OXHEART, OR GUERANDE, CARROTS

The common tendency of carrots to grow woody or pithy is less noticeable in this improved and popular strain. This variety may be left in the ground longer than any other without developing these depreciating qualities. The Oxheart is a short carrot growing about 4½ inches long and about 3½ inches thick at the shoulder, with a slight taper to the stump rooted bottom. For this reason it is especially desirable for heavy soils, which also grow the best carrots. The flesh is a bright orange, smooth grained and sweet, and it is fine for table use or stock feeding. We are pleased to include this variety in our specialties this year, and our selection of this season puts it among the stock which we can guarantee. Price, packet **10 cents**; ounce **20 cents**; ¼ pound **45 cents**; pound **\$1.25**.

	Pkt.	Oz.	¼ lb.	1 lb.
Germain Early Chante-nay. This is the best early carrot grown for market gardeners. Six inches long, stump rooted, smooth, deep red, fine grained and sugary, not apt to crack	\$.10	\$.20	\$.45	\$ 1.25

Germain Improved Denvers Half Long. A first-class carrot for all soils; in form midway between Long Orange and Short Horn. Of a rich, dark orange color, very smooth and handsome; 20 to 30 tons per acre is not an unusual crop.....	.10	.20	.45	1.25
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----	-----	-----	------

ENDIVE

Note—Prices listed are postpaid.

	Pkt.	Oz.	¼ lb.	1 lb.
Broad-Leaved Batavian. Leaves are broad, thick, green and more or less twisted with white midribs. It forms large hearts which when blanched, makes one of the best winter salads	\$.10	\$.20	\$.65	\$ 2.00

White Curled. A beautiful variety. The leaves are finely curled or massed and need no tying up to blanch as the coloring is naturally a pale golden yellow. This not only makes it very attractive but easy to grow, as plants can be gathered at any time.....	.10	.20	.65	2.00
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----	-----	-----	------

CAULIFLOWER

Note—Prices listed are postpaid.

Germain Recommends

EARLY SNOWBALL CAULIFLOWER

After considerable study of the different types of Cauliflower that have been offered both in America and abroad, we have selected a strain which we consider one of the superior types: This strain is known as "Early Snowball."

It is a snow-white Cauliflower and its leaves have a tendency to over-lap at the top of the flowers. In this way, it protects from injury, exposure to frost, rain or heat. It is very essential that good Cauliflower be so protected on account of shipping, and in this, our strain is perfect.

Our market garden trade is immensely pleased with this strain and our business on it has grown to very large proportions. Pkt., 25 cents; ¼ oz., \$1.50; 1 oz., \$4.50; ¼ lb., \$15.00; 1 lb., \$45.00.

Pkt. Oz. ¼ lb. 1 lb.

Half Early Paris. A dwarf of the medium early variety. The heads are solid; pure white. Stock does not head as uniformly as others we offer	\$.15	\$.50	\$ 1.50	\$ 5.00	\$ 15.00
Large Algiers. A splendid late variety, eminently adapted for Southern California; heads large, white, solid. One of the best for market stock is extra fancy	.15	.50	1.50	5.00	15.00
Veitch's Autumn Giant. A large, late sort of robust habit; heads compact, large outer leaves. Succeeds well in southern latitudes	.20	.50	1.35	4.00	12.00

KOHLRABI

Note—Prices listed are postpaid.

Pkt. Oz. ¼ lb. 1 lb.

Early Purple Vienna. Very hardy; bluish purple	\$.10	\$.30	\$ 1.00	\$ 3.00
Germain Early White Vienna. Flesh white and tender; very productive	.10	.30	1.00	3.00

LEEK

Note—Prices listed are postpaid.

Pkt. Oz. ¼ lb. 1 lb.

Germain London Flag. A large and strong plant; hardy	\$.10	\$.35	\$ 1.15	\$ 3.50
-------------------------------------------------------------	--------	--------	---------	---------

LETTUCE

CABBAGES OR HEADING VARIETIES

	Pkt.	Oz.	¼ lb.	1 lb.
Big Boston. A very desirable smooth-leaved head lettuce, which has not received the attention of California growers as it should. Extremely popular in eastern markets and very successfully grown out here.				
There was a hundred acre field of this variety grown on our Ranch this year; the heads are absolutely uniform and the quality of the lettuce could not be surpassed	\$.10	\$.25	\$.85	\$ 2.50
Germain New York. The pride of the Los Angeles market. By far the most profitable lettuce grown. It is shipped from here in car loads, as far as Colorado. Exclusively used by the best Los Angeles hotels. Hardy, uniform size, wavy leaved and blanches beautifully. Crisp, tender, of just the right flavor, it never fails to please. We have gone to great expense to secure the best and we list it with our strongest recommendation10	.50	1.65	5.00
Germain Paris White Cos. An excellent variety; large, crisp, tender and of fine flavor; resists warm weather and is the best Cos lettuce. Known also as Romaine Cos.10	.20	.60	1.75
Germain Wonderful. A splendid variety for market or home use and the best sort adapted for fall sowing. A strong grower, making fine heads.....	.10	.50	1.65	5.00
CURLED OR LOOSE LEAVED VARIETIES				
	Pkt.	Oz.	¼ lb.	1 lb.
Germain Black-Seeded Simpson. One of the best; leaves are large, thin and exceedingly tender10	.20	.50	1.50
Early Curled Simpson. A popular early sort; forms large, loose heads10	.20	.50	1.50

KALE, OR BORECOLE

Note—Prices listed are postpaid.

	Pkt.	Oz.	¼ lb.	1 lb.
Germain Dwarf Curled Scotch. Very hardy, excellent for spring use	\$.10	\$.20	\$.65	\$ 2.00
Germain Green Curled Scotch. The kind most commonly used; grows to a height of eighteen inches; spreads to three feet in diameter; leaves bright green and curled10	.20	.65	2.00
Germain Jersey, or Tree Kale. Of vigorous growth, grown for chickens and stock only10	.20	.45	1.25
Thousand Headed Kale. An excellent food for poultry, an immense yielder. Crops are known to have gone as high as 60 tons of green feed per acre. Anyone having poultry should plant it.....	.10	.20	.50	1.50

MUSTARD

Note—Prices are postpaid.

	Pkt.	Oz.	¼ lb.	1 lb.
Chinese White. Bak Toi	\$0.10	\$.40	\$ 1.35	\$ 4.00
Ostrict Plume. So called for its feathery appearance; ornamental as well as useful.....	.10	.20	.50	1.50
Southern Curled. Leaves large, fourteen to sixteen inches in length, which are cooked like spinach, and have a very agreeable flavor. One of the best green foods for poultry10	.20	.40	1.25

ONION SETS

Grown from seed that has been sown too thickly to attain a large size. These small onions are planted out and are soon ready to pull for the table or bunch for market. If left to stand they make ripe onions of excellent quality. Maturing about six weeks earlier than crop grown from seed.

	1 lb.
Brown Australian40
White Portugal40

GERMAIN'S SWEET SPANISH ONION

In this new onion you find all the good features of a perfect onion with none of the disadvantages of the common onion; no bite no objectionable strength. Mild, sweet flavor, good firm meat, fine, tender texture characterize Germain's Sweet Spanish Onion.

The seed was introduced here several years ago, from Valencia, Spain, where large crops are grown. It was first grown in California in the Riverside section, and after hard work and painstaking effort an onion has been produced which is far superior in every way to the original importation.

The onions are large; far larger than the common ones. It has been demonstrated this year that an acre of fair soil will produce up to twenty tons. Both from the home gardener's and market gardener's standpoint the possibilities are great. The Sweet Spanish Onion will rapidly replace a good many of the other varieties.

Plant in December to February, and they will mature about August or September. Allow them to mature thoroughly, until the tops have dried. After pulling the onions, allow them to remain in the field covered with the tops for about a week, then put in crates in an airy place to allow thorough curing.

Price per packet, **15** cents; ounce, **75** cents; one-quarter pound, **\$2.50**; one pound, **\$7.50**.

ONIONS

Note—Prices listed are postpaid.

AUSTRALIAN BROWN ONION

The first requirement of the market gardener in selecting an onion is its shipping quality. The producer for home use finds this feature of equal value, for it insures him a prime supply of the vegetable in the cellar bin at all times. In stocking the Australian Brown, Germain's are entirely satisfied that under the most adverse conditions the grower will be more than pleased with this variety. The flesh is pure white, close layered, juicy and tender, growing to a good size. This hardy variety does especially well in the South, and when planted in rich, sandy soil and given an abundance of water, will produce more to the acre than any onion that has come under our observation. Germain's customers will not regret planting the Australian Brown, and we are pleased to note that we are stocked to take care of all orders. Pkt. 10 cents; ounce, 20 cents; one-fourth pound, 60 cents; one pound, \$1.75.

Pkt. Oz. ¼ lb. 1 lb.

Bermuda Yellow Onion.

This variety is more extensively grown for the early market than any other. Being ready for shipping when the storage supply is exhausted they bring the very highest price. Our stock of seed is from the Island of Teneriffe, grown by the most reliable seed grower in that celebrated district. A large, flattish onion, very mild and of a pale straw color

.10 .40 1.35 4.00

Crystal White Wax. A large white onion of the Bermuda type, becoming more popular every year. It is very early, mild in flavor. Excellent shipper and keeper. The seed is very generally sown in beds, and transplanted to the fields when partly grown. Our stock of seed is from the same Teneriffe grower that has supplied us with our fine strain of White Bermuda seed for years. While the supply is limited we are able to offer

.10 .50 1.65 5.00

Denia. A Spanish type, with large globular shape somewhat flattened on under side. Mild flavor, and heavy yielder

.10 .35 1.15 3.50

	Pkt.	Oz.	¼ lb.	1 lb.
Bermuda Red. An early variety resembling the White Bermuda, except in color, which is a pale red, flesh crisp and mild flavor. Fine market onion. (Teneriffe-grown)10	.40	1.35	4.00
Large Red Wethersfield. One of the leading varieties for many years. In color the skin is a deep purplish red. The flesh is white, tinged with red, and of good quality, crisp and solid. It grows to a large size and is both a good keeper and shipper. Our strain of seed of this onion is very fine10	.25	.85	2.50
Prize-Taker. The largest of the yellow onions, globular in shape, of a pale straw color. Produces enormous crops; bulbs frequently weigh as high as three pounds10	.25	.85	2.50
Southport White Globe. A great yielder, fine grained and firm; flavor mild10	.30	1.00	3.00
Southport Yellow Globe. The Southport Onions are handsome globe-shaped bulbs of excellent quality, uniform in size and fine keepers. The yellow is one of the earliest10	.25	.85	2.50
White Portugal, or Silver Skin. One of the leading white sorts, of beautiful shape and very mild flavor. The bulbs are flat and mature early. Splendid variety for market garden. Bulbs average two to three inches in diameter10	.30	1.00	3.00
Yellow Flat Danvers. This is one of the very earliest varieties, a good shipper and keeper. Flat in shape, of straw color and mild in flavor10	.20	.60	1.75
Yellow Globe Danvers. A well known early onion of fine quality. Flesh white and firm. Color a bright orange; grows to a good size, hardy, a sure cropper and a good keeper....	.10	.25	.85	2.50

PEAS

FIRST EARLY VARIETIES

Ht.ft. Pkt. 1 lb. 10 lb.

American Wonder. This is an early wrinkled pea of dwarf habit, the vines generally being about a foot high. Especially good for the private garden. It is quite distinct from other peas, being very stocky and erect. Very prolific	1	.10	.40	3.50
Gradus. An early wrinkled Pea of the finest quality, bearing large pods well filled with the sweetest peas you ever ate. It is not only large and of good quality, but it is also one of the very earliest sorts, and brings the best prices. The demand for these peas from the hotel and choice trade is never supplied. Market gardeners should plant a liberal acreage of this variety. Does best in loamy soil	3	.10	.40	3.50
McLean's Little Gem. A dwarf first early pea of unusual value. Vines average fifteen inches in length; they bear pods about two and a half inches in length, often borne in pairs when mature, always tightly filled with peas of excellent flavor. As early as any but with a larger pod than most early varieties	1	.10	.40	3.50
Nott's Excelsior. A splendid dwarf wrinkled sort, one of the best, hardy, vigorous, and will mature almost as soon as the smooth varieties, often ready to pick in fifty days. The pods usually contain from seven to nine peas. Tender and of fine flavor.....	1½	.10	.40	3.50
Premium Gem. A fine early wrinkled pea with vines about fifteen inches high, pods long and produced in abundance. A profitable market variety excellent for private use	1½	.10	.40	3.50

SECOND EARLY VARIETIES

Ht.ft. Pkt. 1 lb. 10 lb.

Admiral or Senator. A new sort introduced in our local market about three years ago. It is a good second early pea, has thick green foliage, and bears abundantly, large well-filled pods. We consider it one of the best peas for our local markets	2	.10	.40	3.50
Juno. Ideal for main crop. Resists heat perfectly. Dwarf, wrinkled pea, of hardy, vigorous and prolific growth. Long pods, containing 7 to 9 peas of best quality. Sometimes known as Dwarf Champion	2	.10	.40	3.50
Stratagem. This variety has come into prominence on the Los Angeles market due to the fact it is exceedingly prolific and sweet, and has a tendency to keep well after picking. The majority of peas purchased at the corner grocery or fruit stand are this variety. For the market gardener they are exceedingly profitable, and as it is profitable for him to grow them, it is also for the home gardener. It is the main crop variety which grows without any supports..	2	.10	.40	3.50
Yorkshire Hero. Its strong, vigorous growth makes this pea especially valuable to the market gardener and in the home garden that is not too well taken care of, it will naturally be found the most healthy and productive of all the vegetables	5	.10	.40	3.50

LATE VARIETY

Telephone. A fine wrinkled pea growing about four feet high. The peas are large, and of a pale green color. It is very prolific and the pods are very large, containing eight or ten peas....	4	.10	.40	3.50
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---	-----	-----	------

RADISHES

Note—Prices listed are postpaid.

Chartier. A long, smooth radish, red above and shading to clear white at the tip10	.20	.50	1.50
Early Long Scarlet Short Top. Without exception the best long bright scarlet radish, very brittle and sweet, matures in twenty-five to thirty days. Very attractive and adapted to the home or market garden10	.20	.50	1.50
French Breakfast. An early variety with good flavor and very pretty, being a light scarlet tipped with white. A favorite wherever known10	.20	.50	1.50
Long White Icicle. A very popular long white radish. Very sweet, crisp, and tender all through its growth and reaching a length of six inches...	.10	.20	.60	1.75
